

## DOINGS OF CONGRESS

### The Senate Continues the Sugar Discussion.

#### BRIEF SESSION OF THE HOUSE

#### Hawaiian Treaty and the Beet Sugar Bounty Proposition Considered in Caucus.

WASHINGTON, June 14.—The senate debate on the sugar schedule of the tariff bill proceeded today with only one diverting incident to relieve the monotony into which the discussion has lapsed.

This was the sharp exchange between Mr. Hoar of Massachusetts and Mr. Tillman of South Carolina, representing the two extremes of senatorial procedure. Mr. Tillman reiterated the charges of irregularity in connection with the sugar schedule, and asserted that the senate would stand convicted before the American people if it failed to investigate the charges.

Mr. Hoar calmly and impressively repelled this statement, his tone and language being calculated as a rebuke. He declared that the vague charges of irregularity were not only preposterous, but infamous.

Mr. Allison, in charge of the bill, made another speech in defense of the schedule, presenting facts which he declared proved that the sugar refiners received less protection under the senate schedule than under the existing law.

Mr. Pettigrew of South Dakota spoke at length in favor of the amendment to place on the free list articles controlled by treaty, severely arraigning the various treaties.

Mr. Allen of Nebraska urged legal procedure against the treaty. Only one roll call occurred during the day, on Mr. Lindsey's amendment to place all sugars on the same basis. This was rejected, 23 to 72. Mr. McNary, Democrat of Louisiana, voted with the Republicans in the negative and Senators Pettigrew and McNulty with the Democrats in the affirmative.

#### HOUSE.

WASHINGTON, June 14.—The house today adjourned until Thursday after a session that lasted forty-five minutes. The only attempt to transact business was a request by Lacy, Republican of Iowa, for unanimous consent for a bill for the relief of citizens of Greater county, Oklahoma. Henry, Democrat of Texas, promptly objected, and, after the Democratic protest against the Republican policy of not appointing committees, the house by a vote of 88 to 75, with 16 present and not voting, declined to adjourn.

Before the session began a wheel wound round with a monster petition, said to contain 4,000,000 signatures, appealing to congress to recognize the Cuban insurgents as belligerents, while under the space in front of the speaker's rostrum.

It had been in circulation throughout the United States for about six months and was presented to congress by Representative Sulzer of New York.

#### REPUBLICAN CAUCUS.

#### Three Important Propositions Under Consideration.

WASHINGTON, June 14.—The Republican caucus here in caucus for more than three hours tonight and when adjournment was reached not very much progress had been made. The Hawaiian treaty proposition was passed over, to be considered at another caucus, as several senators expressed the opinion that it was too late to take it up. The annexation treaty was not taken up, although there was much discussion of it. The question of the abrogation of the treaty of reciprocity, which was the subject of the proposed treaty.

The caucus was in session from 8 until 11:30 o'clock and three propositions only were under consideration. These were: The question of what to do with the Hawaiian reciprocity treaty, the advisability of giving a bounty on beet sugar and the question of an anti-trust amendment.

The Hawaiian treaty question was passed over, but the sugar bounty proposition was withdrawn and the anti-trust amendment was referred to the Republican members of the judiciary committee.

#### WEATHER AND CROPS.

#### Accurate Information to be Sent Out Weekly.

SAN FRANCISCO, June 14.—The local weather bureau office has just received notification of the transfer of the California climate and crop service from the Sacramento office, with instructions for the issuance of crop bulletins similar to those sent out in different eastern states. A bulletin will be issued every Tuesday from reports telegraphed from all over the state and the entire bulletin, containing accurate information of the condition of crops in relation to the weather. Monthly and annual compilations will also be published. The first of the weekly bulletins will appear June 20th.

#### Six Lively Rounds.

PULMANVILLE, June 14.—Joe Wolf, the Boston colored boy, and Tom Tracy of Australia were the star attractions at the arena tonight and fought six lively rounds. Throughout the bout the colored boy was the aggressor and succeeded in landing his favorite swings on the body and neck a number of times. Clinches were frequent all through the fight, but in the breakaway both men fought clean. In the third round Wolf cut a heavy left on Tom's head and sent him to the floor, but Tracy was on his feet a moment afterward. The fourth round ended with honors even, and in the fifth, after a rattling box-exchange of blows, both men fell to the floor together. The last round ended after several clinches and a light exchange, followed by Wolfcut pinning Tracy hard, the latter putting up a good resistance.

#### A Smelter for Stockton.

Stockton, June 14.—P. A. Baill returned today from a trip through Calaveras and Tuolumne counties, where he made it his business to consult mining men about building a smelter in Stockton, and met with great encouragement. He says he will form a company at once to carry forward the project. The cost of the plant is figured at \$250,000.

## THE WHITES ARE NOT IN IT.

### Chinese and Japanese Do the Work in Our Beet Fields.

SAN FRANCISCO, June 14.—State Labor Commissioner Fitzgerald, who has just returned from a personal investigation of the labor employed in the beet fields at Pleasanton, Alvarado, Watsonville and Salinas, says:

"I find that between 95 and 98 per cent of all the labor used in the beet fields of California is Japanese and Chinese, with the Chinese fast going to the wall as against the competition of the Japanese."

The cane fields of Hawaii have over 14 per cent of white labor, while the beet fields of our own California show but 5 per cent at present. The Japanese houses in the fields told me that next year they will handle the entire industry and that they can get all the Japanese necessary by way of Victoria. They say, too, that they expect to become farmers and bid against the whites in renting the land."

#### ATTEMPTED ASSASSINATION.

#### A Bomb Explodes Near President Faure of France.

PARIS, June 14.—An attempt was made yesterday to assassinate Felix Faure, President of the French republic, while he was en route to Longchamps to witness the grand prix.

While M. Faure's carriage was passing a thicket near La Cascade restaurant, in the Bois de Boulogne, a bomb, which subsequently proved to be a piece of cobalt six inches long and two inches in diameter, charged with powder and a time fuse, exploded.

No one was injured by the explosion. A man in the crowd, suspected of the crime, was arrested. He gave his name as Gallet and made only the briefest replies to questions put to him by the police.

This afternoon the police found a second tube filled with powder and scrap iron near the scene of yesterday's explosion. They are of the opinion that the miscreant is probably the man who placed explosive devices of a similar character in the Plaza de la Concorde during the recent visit of Emperor Nicholas.

#### Illinois' Butter Law.

SPRINGFIELD, June 14.—Governor Tanner today signed the bill preventing the coloring of butter or imitations of butter.

#### FIRE ON ELLIS ISLAND

#### GOVERNMENT EMIGRANT STATION BURNED.

#### Two Hundred Immigrants Safely Removed—Valuable Records Destroyed.

New York, June 15.—The United States government emigrant station on Ellis Island, in New York harbor, was destroyed by fire this morning, but with probably no loss of life. The fire was first seen at 12:30 this morning by the lookout from the harbor police station. The fire spread rapidly. At 1:05 a.m. the entire island and the pier and docks on either side.

At 1:12 a.m. the whole island was a mass of flames. A quickly made party of twenty-five men were ordered to the scene. The fire grew wicker and was soon under way, with firemen, policemen and others fighting it. The fire broke out in the building used as a warehouse for the city and quickly spread to the main building.

Later many persons went over in tugs and rowboats. The end of the building in which the fire started was used for sleeping, cooking and eating by the immigrants. The detention pen in which there are always a considerable number of immigrants being held for investigation, was soon consumed. Besides the building mentioned, there is a hospital, the offices of the commissaries, a laundry and a disinfecting department, and great stores in which are stored large quantities of rain water gathered from the roof of the buildings.

The physicians and minor officials live in the smallest building of the city and it is presumed at this hour that these, with all the other buildings on the island, will be destroyed.

The valuable records are undoubtedly destroyed. The immigrants were safely taken from the island in the tug boats, leaving no one on the island except the firemen and a few attendants.

#### Kings County to Have a Hospital.

HAYWARD, June 14.—The supervisors have called for plans for the erection of a new county hospital not to cost more than \$85,000.

#### FIRE AT MADERA.

#### The Planing Mill Burned to the Ground.

The planing mill of the Madera Flume and Trading Company at Madera was destroyed by fire about 11 o'clock last night. It stood on the railroad reservation alongside the railroad track, and the telegraph wires were all burned out. There was no communication with the town from this city, and the particulars of the fire could not be obtained last night. The mill was situated apart from any other buildings, and no further damage was done.

#### The Smith Claim.

The supervisors yesterday revoked the order adopted last December directing that the case of Robert Smith against the county be appealed to the supreme court, but did not order that this claim be dropped. The case was referred to the board for Smith, and District Attorney Snow represented the county. Mr. Snow advised against the payment of the claim, at least for the present, and the board acted accordingly.

R. F. Alarid of Stanford University, J. N. Pomroy of San Francisco, Miss Koper of Virginia, Mrs. Kellogg of San Francisco, Mrs. W. W. Wagoner of Mendocino and George Waterman of Fowler, who went together to the Yosemite a week or so ago, stopped off in Fresno yesterday on their way home.

Thomas E. Hughes, O. J. Beck and E. N. Lindsey, a San Francisco mining firm, started this morning for the mines at Silverton. They took along with them six miners and ten pack animals and will spend the summer in the mountains.

A marriage license was issued yesterday to George R. Andrews and Irene O. Patterson, both of this city.

## SUPT. ROBY RESIGNS

### "Let Down Easy" by the School Trustees.

#### THREE OTHER DISMISSALS

#### Four Vacancies Caused by Resignations Filled—Interesting Session of the Board.

The City Board of Education held an important meeting last night, and created four vacancies in the force of teachers. Superintendent C. W. Roby's resignation was accepted. Miss Helen Curtis and Mr. A. L. Jones were not retained as teachers in the high school, and Miss C. C. Pendergast was not re-elected as one of the corps of instructors for the grammar grade.

These were the four vacancies occasioned by the board, and it received four resignations. C. H. Rowell resigned from the position of teacher of mathematics in the high school. He has accepted a call to the University of Chicago. For Mr. Rowell's place the board elected W. H. Baker, formerly of Pierce Christian College, College City, Cal., and of Hesperian college at Woodland.

Resignations were also received from Misses Meritt Eley, Blanche Hoshing and Klara Hensley, who have taught in the primary grades for a number of years.

The session of the board was a highly interesting one, and it did not adjourn until 1 o'clock this morning. The first business transacted was the acceptance of the resignation of Mr. Rowell. Then the board proceeded to re-elect the remaining high school teachers.

C. L. McClure was awarded the principalship of the high school for the year, \$100 more than he was paid last year. Trustees Church and Stephens voted against the increase. Miss Alice Marchant and Miss Clara Rowell were re-elected, and the salary of the new teacher, Mr. Baker, was fixed at \$1200. No mention was made of Mr. Jones' resignation, and the board thereby signified its decision not to retain him.

Miss Curtis was omitted in the same manner.

Mr. Roby's resignation was read and accepted. On June 12th the board held a special meeting, at which the superintendent was unanimously tendered the position for next term, but the fact of the matter was that this action was taken upon the distinct understanding that Roby would resign. Why the effort was made to shield the professor from the unpleasantness of a dismissal, when such favors were not shown in other instances, is not known.

Having disposed of the high school the board took up the grammar grade. Trustees Church and Stephens voted against the increase. Miss Alice Marchant and Miss Clara Rowell were re-elected, and the salary of the new teacher, Mr. Baker, was fixed at \$1200. No mention was made of Mr. Jones' resignation, and the board thereby signified its decision not to retain him.

It was then moved that all the principals of the various buildings be re-elected. There will be some changes in the assignments, however. All the teachers in the primary grades excepting those who resigned were retained. The board has not decided what to do in regard to the grammar grade teachers appearing before the board and slow cause why they should be retained. This was lost, and then the original motion to re-elect Miss Roby was carried.

Miss Helen Curtis was unanimously re-elected, as was Miss Angeline Chambers. Miss Pendergast was "dropped."

It was then moved that all the principals of the various buildings be re-elected. There will be some changes in the assignments, however. All the teachers in the primary grades excepting those who resigned were retained. The board has not decided what to do in regard to the grammar grade teachers appearing before the board and slow cause why they should be retained. This was lost, and then the original motion to re-elect Miss Roby was carried.

#### FOR EMBEZZLEMENT.

#### WILLIAM O. WOLF ARRESTED YESTERDAY AFTERNOON

#### Charged With Embezzling \$185 From Fong Jim—Could Not Furnish Bond.

William O. Wolf, collector and detective, is in jail, and if the allegations contained in a complaint filed yesterday in Justice Austin's court are proved, he will soon find himself in prison. The complaint was sworn to by Deputy Constable J. E. Kinsdale and charges Wolf with felony embezzlement. The person who is alleged to have suffered by reason of Wolf's wrongful act, however, is Fong Jim, a Chinaman. It appears that on March 21st last, Fong Jim had a claim against F. E. Doherty, a physician, for \$233.99. The claim was taken before Justice Austin, who fixed Wolf's bail at \$1000. Wolf spent several hours, accompanied by the officer, trying to find somebody to go on his bond, but no one would oblige him and he was taken to the jail and locked up. It is stated that there is an excellent case against him, and the future therefore looks very unpromising for Mr. Wolf.

It appears that this is not the first time Wolf has been engaged in shady transactions. It is reported that some time ago he victimized a man named Bonadon, who lives in Sanger, out of \$21. Bonadon had a bill for that amount against Dan Stolor, who was in the employ of W. K. Washburn, the livery stable man. Being unable to collect the money, the Sanger man turned over the bill to Wolf for collection. Wolf set about collecting the claim for him, but was finally settled in this way: The

## BRITISH SHIP BURNED.

### Part of the Crew Picked Up by the City of Paris.

SAN FRANCISCO, June 14.—The Pacific Mail steamship City of Paris, now in quarantine at this port, brings the details of the loss in mid Pacific of the British ship Buckheart on April 24th last, she having picked up part of the crew of the ill-fated vessel on May 2d when 200 miles off the Nicaraguan coast, and landed them at Punta Arenas.

The Buckheart sailed from Newcastle for Panama with a cargo of coal on February 2d last and had an uneventful voyage until April 31, when smoke was seen issuing from her funnels and vent-lashers. The pumps were rigged, but without effect, for after working night and day for ten days the flames compelled the crew to abandon the ship. After the vessel burned to the water's edge the boats were used for some time, 470 miles distant, but only three of the five reached there a week later, the others, with seventeen men, having disappeared. Twenty days were spent upon the island by the crew, but without effect, for after working night and day for ten days the flames compelled the crew to abandon the ship.

When picked up by the City of Paris they were in a wretched condition from thirst, heat and exposure.

#### TRAIN DERAILED.

#### Engineer Killed and Several Trainmen Injured.

Richmond, Ind., June 14.—Train No. 2, southbound express, on the Grand Rapids and Indiana railway, was derailed this afternoon at Stone station, near Ellettsville, five miles north of here. The rails are said to have spread, derailed the engine, tender, mail and baggage cars. The engine was partly derailed. The engine was totally demolished, instantly killing Engineer David Kerano of Fort Wayne, aged 50 years. He did not leave his seat and was found under the engine. Fireman Grabel of Fort Wayne was severely injured. He fell under the tender. Baggage-master Martin Munch of Fort Wayne was also injured. H. W. Mundy, the express messenger at Grand Rapids, was slightly injured. The smoker and other coaches were not damaged. No passengers were hurt. Heat is supposed to have caused the spreading of the rails.

#### GEORGETOWN BURNED

#### THE ELDOBORO MINING TOWN DESTROYED.

#### Fire Followed by an Explosion Which Wrecked Many Buildings.

#### Mrs. Newell Killed.

AURORA, June 14.—Georgetown, a mining town in Eldorado county twenty-five miles from here, burned to the ground this morning. The fire originated in Shepard's grocery store, the middle of the main block, at 9:35 this morning, and the fire spread both ways, burning everything from the American hotel to the water company's office. Among the buildings burned were Shepard's grocery store, Jarrett's grocery, Mrs. Jackson's notion store, Orilla's store, the postoffice, express office, Stenhouse's grocery, Truitt's bakery, the Pioneer livery house, two barber shops, three saloons, undertaking parlors and Shearer's shoe store and both meat markets.

Just before the fire had run its course there was a terrific explosion of giant powder in Sorenberg's store. Mrs. Wm. Newell was instantly killed and Mrs. McClure seriously injured. The little son of Editor Hubert had his leg broken, and many others received slight injuries as a result of the shock. Every window in the residence portion was broken and all these business buildings were leveled to the ground.

It is understood that the board has no one particularly in view to succeed Mr. Roby.

#### FIVE YEARS AT FOLSOM.

#### Judge Riley's Severe Sentence on a Petty Thief.

Neil Nelson was yesterday sentenced by Judge Riley to serve five years in the state's prison at Folsom for stealing a hat worth \$1.50. Some months ago Nelson snatched the headwear from a rack in front of I. Kinsdale's store on 1st street, but he was observed by Deputy Sheriff Frank Scott and Cash Thomas, who quickly ran him down and took him to jail.

While the theft did not amount to more than petty larceny, the charge against Nelson was made a felony because he had once before been convicted on the same charge, which fact the prisoner denied.

Nelson is a petty thief of whom it is well that the community is rid for the time given. The fellow undoubtedly deserves severe punishment for his numerous offenses.

#### Undiluted Food for Thought

#### Mixed With Cayenne Pepper Pain

#### Food Guaranteed to Cure Cold

#### Food and Wind on the Stomach.

Some of my competitors claim that I hypnotize people when they come into my store to examine my immense stock and make purchases. While it is true my ox-bow shirt with frills and variations paralyzed a man from Madera last week, the former statement regarding my hypnotic ability is greatly exaggerated. My prices and courteous treatment of my patrons gives me a double-barreled lodestone clench in drawing the cream of the trade my way. I want a distinctly understood, even if I carry a rabbit foot and dress load, I am no hoodoo. I must have the trade, have always had it, will continue to take it, if good treatment and low prices cannot do anything. Look out for me on the 4th of July. I will be there better than ever before. I will give away a pie on that day. I have contracted for 10,000 with a local baker to make them and have a lot of pies on hand in order to have one enough when the time arrives. W. PARKER LYON, At the same place. Pickled in ice.
